

VertexPay Bank and Payment Records

VP-18 | HDFC operating account extract and internal ledger reconciliation

Account name	VertexPay Technologies Private Limited
Bank / account	HDFC Bank / masked ending 4419
Statement period	1 April-10 October 2025
Opening balance	53,000,000
Vertex Labs payments	24,100,000
Vertex Labs refund	3,200,000
Meridian receipt	72,000,000
Riverstone receipt	17,100,000
Riverstone allotment consideration	18,000,000
Subscription shortfall	900,000
Record scope	Condensed extract, not a complete statement; selected transactions are shown and omitted debits and credits are represented only by a net as-of reconciliation adjustment
Unrestricted cash at 9 Sep	13,400,000

Evidence limitations: the rows are a synthetic selected bank export, not a complete statement. The participant file does not include bank officer certification, complete mandate forms, source SWIFT/NEFT messages, the gross composition or timing of omitted movements, or the Riverstone diligence mandate. One bank reference differs by one digit from the internal ledger; categories and approval records also conflict. VP-05 records unaudited cash of INR 38.6m on 7 August, while this selected-row reconstruction shows INR 44.9m; the basis, cutoff and any restriction classification are unresolved.

Bank Statement Extract

Account ending 4419 | Values in INR | Selected extract, not a complete statement; reconciliation adjustments do not establish transaction timing or gross flows

Payment Reconciliation

Formula-driven comparison of bank, ledger and documentary support

Issue	Bank amount	Ledger amount	Supported value / obligation	Bank-ledger delta	Residual / shortfall	Status	Evidence note
Vertex Labs gross payments	24,100,000	24,100,000	19,800,000	0	4,300,000	REVIEW	Support before refund
Vertex Labs refund	3,200,000	3,200,000	3,200,000	0	0	MATCH	18 Sep credit
Vertex Labs net unexplained	20,900,000	20,900,000	19,800,000	0	1,100,000	REVIEW	Gross less support less refund
Meridian subscription	72,000,000	72,000,000	72,000,000	0	0	MATCH	Fully received after allotment
Riverstone subscription	17,100,000	18,000,000	18,000,000	-900,000	-900,000	REVIEW	INR 0.9m journal set-off unsupported by agreement
Interpretation: the INR 1.1m Vertex Labs residual is not proof of diversion; missing invoices, overpayment or recoverable deposit remain possible. The Riverstone INR 0.9m difference is a subscription-payment issue because the ledger grosses up a non-cash set-off without an executed agreement in the case file.							

Bank Record Checks

Formula integrity *PASS*; source/document conflicts remain *REVIEW*

Check	Actual	Expected	Delta	Status	Interpretation
Vertex Labs payments total	24,100,000	24,100,000	0	PASS	Matches Board/CFO record
Vertex Labs refund	3,200,000	3,200,000	0	PASS	Matches internal report
Vertex Labs residual	1,100,000	1,100,000	0	PASS	Unexplained pending full support
Meridian receipt	72,000,000	72,000,000	0	PASS	Matches allotment amount
Riverstone receipt	17,100,000	18,000,000	-900,000	REVIEW	INR 0.9m short
Reconstructed closing balance	88,500,000	88,500,000	0	PASS	Selected rows plus the net as-of adjustment reconcile the reported closing figure; this does not establish completeness, timing or gross flows
Reported unrestricted cash at 9 Sep	13,400,000	13,400,000	0	PASS	Selected rows plus the net as-of adjustment reconcile VP-10; omitted gross movements and timing remain unknown
September payroll paid	12,700,000	12,700,000	0	PASS	INR 6.2m statutory/other outflows remained due or rolled
7 Aug cash discrepancy	44,900,000	38,600,000	6,300,000	REVIEW	VP-05 records CFO unaudited cash of INR 38.6m; this reconstruction shows INR 44.9m. Basis, cutoff and restriction classification are unresolved.
