Pricing footnote

The stated INR 60.00 price is internally consistent with the INR 480,000,000 pre-money valuation divided by 8,000,000 pre-money Fully Diluted units and with INR 120,000,000 for 2,000,000 securities. The

definitive Shareholders' Agreement, however, records INR 6.00 per security while still recording INR 120,000,000 for the same 2,000,000 securities. The closing bank credit is INR 120,000,000. No split or bonus issue document is present. The record therefore supports a decimal drafting error in one document, but the participant file does not include the closing funds-flow or rectification instrument that would conclusively identify which term controls.
